

2023 COLLECTION

[www.aselkon.es](http://www.aselkon.es)

We, ASELKON AŞ, are a well established international company that manufactures and exports Hunting, Sporting, and Tactical Military Purpose Shotguns, Pistols, PCP Air Rifles and all spare parts of firearms in accordance with internationally accepted standards, especially to ATF and CIP proof tests, and Country-Specific Firearms Compliance Regulations. We've been actively operating in the firearms sector since 2006 with our vast experience in manufacturing and exporting to more than 50 countries. Our products are highly appreciated in many leading markets in the world.

Thanks to our 40.000 m<sup>2</sup> fully integrated production facility, with our dynamic, productive and experienced technical staff, we manufacture every parts of guns from raw material to final product in our own facilities without depending on any

external factor. In this way, in every stage of production we manage our quality control perfectly and provide a high level of quality assurance.

As well as our major operations in international markets, we continue to cooperate with government and military forces in delivering diverse projects regarding armored vehicles, missile launcher platforms, crane – machinery and construction industry.

As being one of the leading manufacturers in firearms industry, we constantly improve our product and service quality with the concepts of high automation and flexibility in order to provide better quality products and effective solutions for the needs customers. We always aim the best in quality and increase the customer satisfaction.

SWIVEL KIT

Aselkon recoil pads which are made of a mixture of special polyurethane and rubber materials minimize the recoil and provides a comfortable targeting and shooting.

Our proprietary refinements to the ultra-reliable Bruno Civalani “floating bolt” action ensure the Aselkon Shotguns are able to quickly cycle even the lightest 12 gauge loads. Inertia system consists of 3 main parts; bolt mechanism, rotating bolt, and inertia spring. Thanks to its simple combination, inertia system functions faster and flawlessly. Unlike the gas operated systems, since the burnt powder gas does not contact with the mechanism, system remains clean and requires less maintenance. Aselkon’s rotating bolt utilizes our unstoppable Inertia Technology Locking System to ensure positive bolt head lock-up to the breach under all conditions.

Each Aselkon barrel is subjected to a proof test with 1500 BAR high pressure test cartridge before leaving our factory.

Aselkon’s improved loading mechanism provides the user quite a smooth loading.

The center of gravity is balanced on the forend to ensure a comfortable carry and practical shooting.

### INTERPLUSCHOKE

We engineered the interchangeable InterPro Chokes to maximize the constancy of shot placement through reduced friction that enhances load speeds.

### DROP&CAST ADJUSTMENT

7

### INTERBOREDBARREL

Aselkon barrels are standard with our precision drilling, honing and chrome coating process. Aselkon Barrels are designed to increase accuracy, to shoot comfortably and function superbly with both light and heavy loads.
